

I am a resident of Indiana and have already placed a my name on a list blocking unwanted phone calls. I do not want the Indiana Telephone Privacy Law interfered with by a federal law. I placed my name on this list because I did not want to be bothered by these people. I do not want any one that I used to do business with being able to call me because I used to be a customer. I do not want to be bothered by them or any one else. The law in Indiana is far superior to the one that you the federal government are proposing. Leave it alone. I used to recieve in excess of a dozen phone calls which began in the early morning hours and lasted until 9 at night when they could not legally call. Since I have been on this list the amount of phone calls has decreased to 1 or 2 a week. Leave the Indiana law alone.
